30202

DREVE IMPRESSION SYRINGE

Standard syringe
The double piston principle enables easy filling and a stable, easy injection. The transparent cylinder makes the injection process visible.

9.533

DREVE IMPRESSION SYRINGE

CIC syringe
The CIC impression syringe (blue) is advantageous for small auditory canals.

9.534

POLYTHENE IMPRESSION SYRINGE

Polythene Impression syringe 20131
Economical, high quality polyethylene syringe can be used with any impression material.

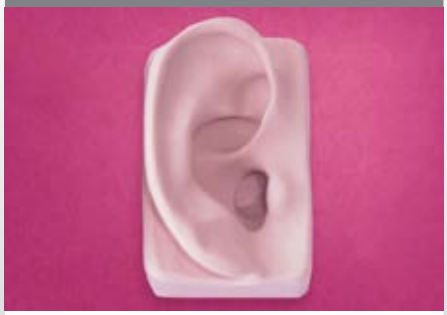
20131

BITE BLOCKS

Bite Blocks/10
Single use Styrofoam spacers hold a patient's mouth open and in a comfortable position when taking open jaw impressions.

PART NUMBER 20251

DEMONSTRATION EARS



Anatomically correct models of the external ear are ideal for learning how to take impressions or to show patients how earpieces and hearing instruments interact with the ear. Available as a pair only.

PART NUMBER 20221

FRISCH FRICOTAN

A+B, 30sh, yellow. Addition vulcanising silicone impression material with very smooth consistency.
Mixing time : 30 – 90 seconds
Curing time : approx 4 – 6 mins
Storage : Room temperature

PART NUMBER 201010

DREVE OTOFORM KC

Dreve Otoform Kc A + 5ml hardener, 30shore, pink. Smooth and non-sticky with a slight pressure forming consistency.
Dreve Otoform AK 2 Potmix 255h green

OTOFORM AC PART NUMBER 35222
OTOFORM KC PART NUMBER 35021

FOAM DAMS

Foam cone with safety thread to protect the ear drum during impression-taking. The pads consist of flexile foamed material. The CIC pads are suitable for children or narrow auditory canals.

Standard, red. Length 12mm	**4.565**
CIC, yellow. Length 7mm	**4.566**

COTTON DAMS

For sensitive ears or for deep canal impressions. Dams come pre-tied. Available in five sizes

See price book for details

PRO VENTED DAMS

These dams are manufactured with a ventilation tube that relieves air pressure that can build up while impression material is injected into the ear canal and when the cured impression is removed. Supplied in four sizes.

See price book for details

MANUAL INJECTOR

The manual injector enables a clean and safe application of impression materials with a stable pressure

PART NUMBER 20112

IMPRESSION CARTRIDGE

Hardness 40shore, colour yellow.
An impression material in a pasty consistency. Otoform A soft is recommended for pressure-free impression taking and for CIC hearing systems.

Otoform A soft 50ml cartridge **3206**

IMPRESSION CARTRIDGE

Hardness 25shore, colour turquoise.
An impression material in a pasty consistency absolutely thixotropic. Easily removed with a soft final hardness and a high tensile strength.

Otoform A flex 50ml cartridge **2936**

IMPRESSION CARTRIDGE

Hardness 35shore, colour green.
The first non-sticky, kneadable ear impression silicone for pressure forming impression technique

Otoform AK50ml cartridge **4545**

ELECTRONIC STETHOSCOPE

Littmann Brand

3M LITTMANN
Electronic Stethoscope
Model 3200 – Up to
24X Amplification

The Littmann model 3200 allows the user to select between three different digital frequency filters to better emphasise the specific patient sounds of interest.
The Bellmode amplifies sounds from 20 – 1000Hz but emphasises lower frequency sounds between 20-200Hz
The Diaphragm mode amplifies sound from 20 – 2000Hz but emphasises the sounds between 100-500Hz
The Extended Range mode amplifies sounds from 20-2000Hz and provides more low frequency between 50 -500Hz

HEARING IMPAIRED E-SCOPE

Cardionics
The Heart Of Auscultation

HEARING
IMPAIRED E-SCOPE
The E-Scope hearing Impaired Model is an electronic stethoscope which amplifies up to 30 times louder than an acoustic scope.
The E-Scope may be used with mono headphones via a 3.5mm jack socket. The headphones allow the user to leave their hearing aids in place while listening. The E-Scope has a control filter which allows the user to concentrate on heart or breathing sound frequencies. The E-Scope is designed to remain at the same volume setting each time you power on and has 64 possible volume positions with a maximum output of 125dB

REID TECHNOLOGY

AMPLIFICATION

Maxi
Personal amplifier

Bellman & Symfon®
DESIGN FOR EARS

Features

1. **Digital signal processing**
   Clear and noise-free sound
2. **Easy to use**
   Up and running in minutes
3. **Great ergonomics**
   Robust and user friendly
4. **Telecoil**
   Works with loop systems
5. **Flexible**
   Connects to the TV or radio

Maxi is a personal amplifier that will bring out the words so you can hear them loud and clear, even when there is a lot going on in the background.

Use Maxi for example when the family gathers around the dinner table, in the store, or to listen to the radio and TV. Maxi delivers clear and distinct speech and works both with and without hearing aids.

Easy to use
Maxi is intuitively easy to use and you are up and running within minutes flat. Everything is easily accessible with the simple press of a button and there are no complicated menus to learn. Just connect your earphones or neck loop and adjust the volume to your liking.

Clear and distinct sound
Maxi is equipped with the latest digital technology and delivers clear and distinct sound of the same quality as modern CD and DVD players. It efficiently amplifies speech while filtering out unwanted background noise.

Great ergonomics
Maxi is very robust and user friendly. It features large tactile buttons, soft grip materials and high contrast indicators that make it very easy to handle. Maxi is a great choice for those with low vision or limited dexterity.

Technical specifications

Subject to change without prior notice.

Size and weight

Height: **5.5** inches (140 mm)
Width: **1.8** inches (45 mm)
Depth: **1.1** inches (27 mm)
Weight: **4.7** ounces (133 grams)

Input signals

- Microphone: Built in omnidirectional electret condenser microphone
- Telecoil pickup for inductive loops
- External sound source input: 2.5 mm stereo jack plug (+6 dBV max input signal)

Output signals

- Headphone socket: 3.5 mm stereo jack plug
- Distortion: 0.557 % THD (electrical)
- Frequency range: 40-10 kHz (electrical)
- Tone control: 5 pre-set steps
- Volume control: 9 steps (5 dB/step)
- Output power: 125 mW (16 Ω load)

In the box

The package includes everything you normally need in order to use your Maxi.

- BE2020 Personal amplifier
- Two AA alkaline batteries
- Belt clip
- Neck strap with safety clasp
- User manual
- Quick guide
- Listening accessory
  (Varies with package and territory)

Power and battery

- Two AA alkaline batteries
- Operating time: up to 150 hours

Acoustic specifications

- Maximum output using BE9122 headhones 119 dB (HF Ave. SPL 90)
- Gain at full volume using BE9125 stetoclips 135dB (@ 1kHz SPL90)
- Full on gain:
  Using BE9122 headphones
  (60 dB SPL input signal)
  51.07 dB @ 1.6 kHz
- Full on gain:
  Using BE9124 earphones
  (60 dB SPL input signal)
  54.54 dB @ 1.6 kHz
- Full on gain:
  Using BE9125 stetoclips
  (60 dB SPL input signal)
  56.57 dB @ 1.6 kHz

Regulatory requirements

- Complies with the following requirements:
  WEEE, Der grüne punkt, CE, FCC, C-Tick , RoHS

Buttons and controls

Environmental requirements

- Operating temperature: 32° to 95° F (0° to 35° C)
- Relative humidity: 5% to 95% (non condensing)

Accessories

The following accessories are available:

- BE9122 Stereo headphones
- BE9124 Stereo in-ear earphones
- BE9125 Stetoclips
- BE9127 Tie-clip microphone
- BE9137 Cable kit, 16 feet (stereo) incl. adapter from 3,5 mm stereo tele jack to RCA (phono)
- BE9147 Travel case in durable canvas
- BE9159 Neck loop

   Fits discreetly in your pocket
3. **Directional microphone**
   Clarifies speech even further
4. **Telecoil**
   Works with loop systems
5. **Flexible**
   Connects to the TV or radio

Mino is a personal speech amplifier that helps you hear better in most everyday situations, whether you wear a hearing aid or just suffer the occasional hearing difficulty.

Digital signal processing. Mino uses digital state-of-the-art signal processing to bring out speech in difficult listening situations. Mino delivers crystal-clear sound, free from background noise and feedback.

Pocket size and super light. Mino is as small as a modern cellphone and can be kept discreetly in your pocket without weighing you down.

Easy to use. Mino is intuitive to use. All functions are accessed with the simple press of a button and there are no complicated menus to navigate.

Long lasting power. Mino uses a rechargeable lithium-ion battery, just like a modern cellphone.

Directional microphone. Mino is equipped with an omni-directional and a directional microphone. With the directional microphone, you can 'point' to the person talking, reducing unwanted background noise.

Built in Telecoil. Mino is equipped with a Telecoil. The Telecoil picks up sound in venues fitted with hearing loop systems, such as theaters, churches, and concert halls.

Flexible. Connect Mino to the TV, radio, MP3 player or computer and you can enjoy great sound in stereo at the volume of your choice while sparing your family's ears.

Great with hearing aids. Mino clarifies speech and filters out disturbing background noise before it reaches the hearing aid or cochlear implant. This means you don't have to make so much of an effort to hear.

Technical specifications

Subject to change without prior notice.

Size and weight

Height: **3.9** inches (99 mm)

Width: **1.9** inches (48 mm)

Depth: **0.9** inches (22 mm)

Weight: **2.5** ounces (74 grams)

In the box

The package includes everything you normally need in order to use your Mino.

- BE2030 Personal amplifier
- USB universal charger
- Mains plug
- Charger cable
- Neck strap with safety clasp
- User manual
- Quick guide
- Listening accessory (Varies with package)

Buttons and controls

Power and battery

- Built in rechargeable lithium-ion battery
- Operating time: up to18 hours (With included light weight battery)
- Charging time: 2.5 hours (With included light weight battery)

Environmental requirements

- Operating temperature: 32° to 95° F (0° to 35° C)
- Relative humidity: 5% to 95% (non condensing)

Input signals

- Microphone: Built in omnidirectional and directional microphone
- Telecoil pickup for inductive loop systems
- External sound source input: 2.5 mm stereo jack plug (0 dBV max input signal)

Output signals

- Headphone socket: 3.5 mm stereo jack plug
- Distortion: 0.05% THD (electrical)
- Frequency range: 40 – 10 kHz
- Tone control: 9 steps
- Volume control: 9 steps
- Output power: 100 mW (16 Ω load)

Acoustic specifications

- Maximum output using BE9124 earphones 132 dB SPL
- Gain at full volume using BE9124 earphones (60 dB SPL input signal):
  57,5 dB @ 1kHz 56 dB HFA
- Distortion
  Using BE9124 0,08 % THD
  Using BE9122 0,6 % THD

Regulatory requirements

- Complies with the following requirements: WEEE, Der grüne punkt, CE, FCC, C-Tick , RoHS

Accessories

The following accessories are available:

- BE9122 Stereo headphones
- BE9124 Stereo in-ear earphones
- BE9125 Stetoclips
- BE9127 Tie-clip microphone
- BE9129 MicroSet™
- BE9137 Cable kit, 16 feet, 5 m (stereo) incl. adapter from 3,5 mm stereo tele jack to RCA (phono)
- BE9143 USB car charger
- BE9147 Travel case in durable canvas
- BE9159 Neck loop

Domino Classic

Personal hearing system

Bellman & Symfon®

Features

Digital signal processing
Sound with incredible detail

Encrypted broadband link
Secure from eavesdropping

Easy to use
Be up and running within minutes

Pocket size and super light
Fits discretely in your pocket

Domino Classic is a personal hearing system that helps you hear better in most everyday situations, whether you use hearing aids or just suffer the occasional hearing difficulty.

Digital signal processing. Domino Classic uses digital state-of-the-art signal processing technology. As a result, the system delivers music and speech with incredible detail, even in difficult listening situations

Worry free communication. Domino Classic uses the 2.4 GHz global frequency standard for wireless broadband communication, just like your Wi-Fi computer at work. This means you can use Domino Classic anywhere in the world.

The system uses secure 128-bit digital encryption technology which makes it virtually impossible to eavesdrop.

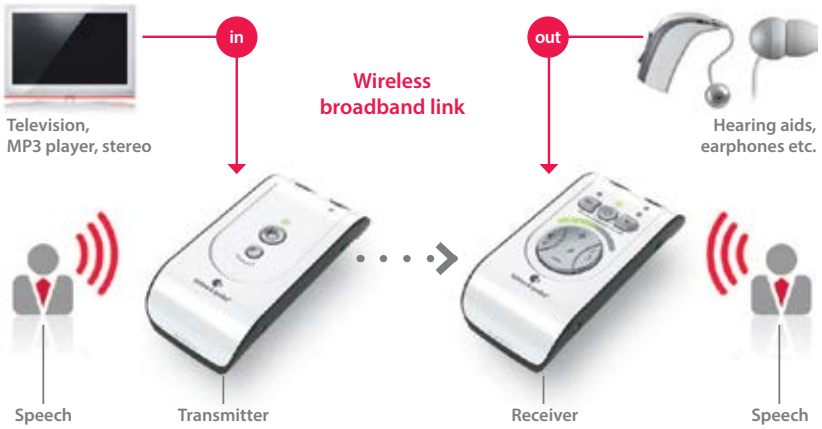
Pocket size and super light. The units are as small as a modern cell phone and weigh just 2½ oz each. So they can be kept discreetly in your pocket without weighing you down.

Easy to use. The system is virtually intuitive to use. All functions are accessed with the simple press of a button and there are no complicated menus to navigate.

Long lasting power. The units are powered with rechargeable lithium-ion batteries, just like a modern cell phone. So you never need to worry about buying new batteries.

Enjoy music and TV. Connect the Domino Classic transmitter to your TV or stereo system and enjoy wireless broadband Hi-fi sound at your own volume.

High quality. Domino Classic is designed by Bellman & Symfon of Sweden and comes with a two-year worldwide warranty.



Technical specifications

Size and weight

Height: **3.9**", **99** mm
Width: **1.9**", **48** mm
Depth: **0.9**", **22** mm
Weight: **2.4** oz, **74** grams / unit

Input signals

- Microphones: Built in omni directional microphones on both units
- External sound source input: 2.5 mm stereo jack plug (0 dBV max input signal)

Output signals

- Headphone socket: 3.5 mm stereo jack plug
- Distortion: 0.05% THD (electrical)
- Frequency range: 40-10 000 Hz
- Tone control: 9 steps
- Volume control: 9 steps, cut-off frequency 1.6 kHz
- Output power: 100 mW (16 Ω load)

Radio communication

- Frequency 2.4 GHz, uses 3 frequencies
- Range 25 m indoors, clear line of sight
  100 m outdoors, clear line of sight
- Characteristics:
  Encrypted communication
  Automatic channel searching
  Coexists with other radio transmitters
  operating on the 2.4 GHz frequency band

Environmental requirements

- Operating temperature: 32° to 95° F
  (0° to 35° C)
- Relative humidity: 5% to 95%
  (non condensing)

In the box

The package, BE8015 includes everything you normally need in order to use your system.

- BE2250 Receiver unit
- BE2270 Transmitter unit
- BE9142 USB universal charger including 4 mains plugs for EU, GB, US and AU

- BE9147 Black canvas travel case
- BE9124 In-ear stereo earphones
- BE9135 Neck straps with safety clasp and polished stainless steel belt clips
- User manual
- Available bundled with BE9159 Neck loop (BE8017)

Power and battery

- Built in rechargeable lithium-ion battery on both units
- Operating time: 8-12 hours
  (With included light weight battery)
- Charging time: 2.5 hours
  (With included light weight battery)

Acoustic specifications

Domino Pro

Personal hearing system

Bellman & Symfon®

Features

Digital signal processing
Sound with incredible detail

Encrypted broadband link
Secure from eavesdropping

Zoom microphones
'Point' to the person talking

Pocket size and super light
Fits discretely in your pocket

Domino Pro is a personal hearing system that helps you hear better in most everyday situations, whether you use hearing aids or just suffer the occasional hearing difficulty.

Digital signal processing. Domino Pro uses digital state-of-the-art signal processing technology. As a result, the system delivers music and speech with incredible detail, even in the toughest listening conditions.

Worry free communication. Domino Pro uses the 2.4 GHz global frequency standard for wireless broadband communication, just like your Wi-Fi computer at work. This means you can use your Domino Pro system anywhere in the world.

The system uses secure 128-bit digital encryption technology; which makes it virtually impossible to eavesdrop.

Zoom the sound. Both units are equipped with omni- and Zoom microphones. With a Zoom microphone, you can 'point' to the person talking, reducing the background noise radically.

Pocket size and super light. The units are as small as a modern cell phone and weigh just 2½ oz each. So they can be kept discreetly in your pocket without weighing you down.

Easy to use. The system is virtually intuitive to use. All functions are accessed with the simple press of a button and there are no complicated menus to navigate.

Long lasting power. The units are powered with rechargeable lithium-ion batteries, just like a modern cell phone. So you never need to worry about buying new batteries.

Enjoy music and TV. Connect the Domino Pro transmitter to your TV or stereo system and enjoy wireless broadband Hi-fi sound at your own volume.

In-depth technical information

Subject to change without prior notice.

- Digital Signal Processing, DSP
- Built in omnidirectional electret micro-phone and zoom microphone
- 10 channel dynamic range compressor
- 10 channel dynamic noise suppression
- Adaptive feedback manager
- Intuitive user interface
  - LED light bar for excellent readability
  - 9 step volume control (5 dB/step)
  - 9 step tone control
  - Clear indication of Volume, Tone, Mic & T mode
  - Low battery warning indicator
- Telecoil pickup for inductive loops
- Push-to-listen mode (Int. mic and Aux in mixed)
- Auxiliary stereo signal input (2.5 mm tele jack)
- Headphones stereo output (3.5 mm tele jack)
- Auto mute when switching between signal sources
- High gloss finish to minimize handling sound
- Requires no individual fitting
- Built-in rechargeable lithium-ion battery
- Universal charger with included mains plug
- BE9135 Neck strap with safety clasp included
- Polished stainless steel belt clip included

Technical specifications

- Dimensions: 99 mm (h) x 48 mm (b) x 22 mm (d)
- Weight: 2.5 ounces (74 grams)
- Battery: Built in rechargeable lithium-ion, 617 mAh
- Operating time: Up to 18 hours (fully charged)
- Charging time: 2.5 hours (max)
- Ext. Mic./Aux. in connector: 2.5 mm stereo tele jack
- Headphones connector: 3.5 mm stereo tele jack
- Volume control: 9 steps (5 dB/step)
- Tone control: 9 steps
- Power switch: On/Off toggle button
- Mic and T mode: Separate mode select buttons
- External microphone / Aux in
  Selects automatically when plugged in
- Dynamic Compressor
  - Dynamic gain range 0-35 dB
  - Compression 3:1
  - Expansion 1:1.5
  - Attack time 20 (25) ms (≥3 kHz)
  - Release time 110 (200) ms (>3 kHz)
- Dynamic noise reduction
  10 channel adaptive noise reduction
- Feedback cancellation
  Adaptive phase-invert feedback cancellation
- Digital signal processing
  - 22 050 kHz sampling frequency
  - 16 bit resolution in stereo

Acoustic specifications

- Maximum output saturation
  - Using BE9122 Headphones
    124.3 dB SPL (@ 2.5 kHz)
  - Using BE9124 Earphones
    132.0 dB SPL (@ 5 kHz)
  - Using BE9125 Stetoclips
    133.7 dB SPL (@ 1 kHz)
- Gain, full volume
  (1 kHz, 60 dB SPL input signal)
  - Using BE9122 Headphones
    42.5 dB
  - Using BE9124 Earphones
    55.0 dB
  - Using BE9125 Stetoclips
    58.2 dB B
- Gain, full volume
  (HFA, 60 dB SPL input signal)
  - Using BE9122 Headphones
    46.5 dB
  - Using BE9124 Earphones
    51.5 dB
  - Using BE9125 Stetoclips
    52.0 dB
- Distortion
  - Using BE9122 Headphones
    0.6 % THD
  - Using BE9124 Earphones
    0.08 % THD

Advanced settings

Balance control
Compensates for example for hearing loss in one ear. 5 dB / step.

Basic attenuation
Limits the maximum output level Useful for e.g. a child. 3 dB / step.

Stereo/Mono
Only effects the line-in signal. Mono is used for neck loop and stetoclips.

Bass reduction
Reduces low frequency interference from fans, road-noise etc.

Tone control blocking
Makes it easier for some end users to handle Mino.

Tone control preset
Select preset tone. Used together with Tone control blocking.

Disable T-coil
Makes it easier for some end users to handle Mino.

Reset to factory settings
Resets all settings to the default factory settings.

Electrical specifications

- Output power tele-jack 100 mW w. 16 Ω last
- Distortion 0.05 % THD
- Dynamic range 90 dB

ALARMS

Safe.

Complete fire protection for your home and family

- ✓ Smoke detector
- ✓ Alarm clock
- ✓ Bed shaker

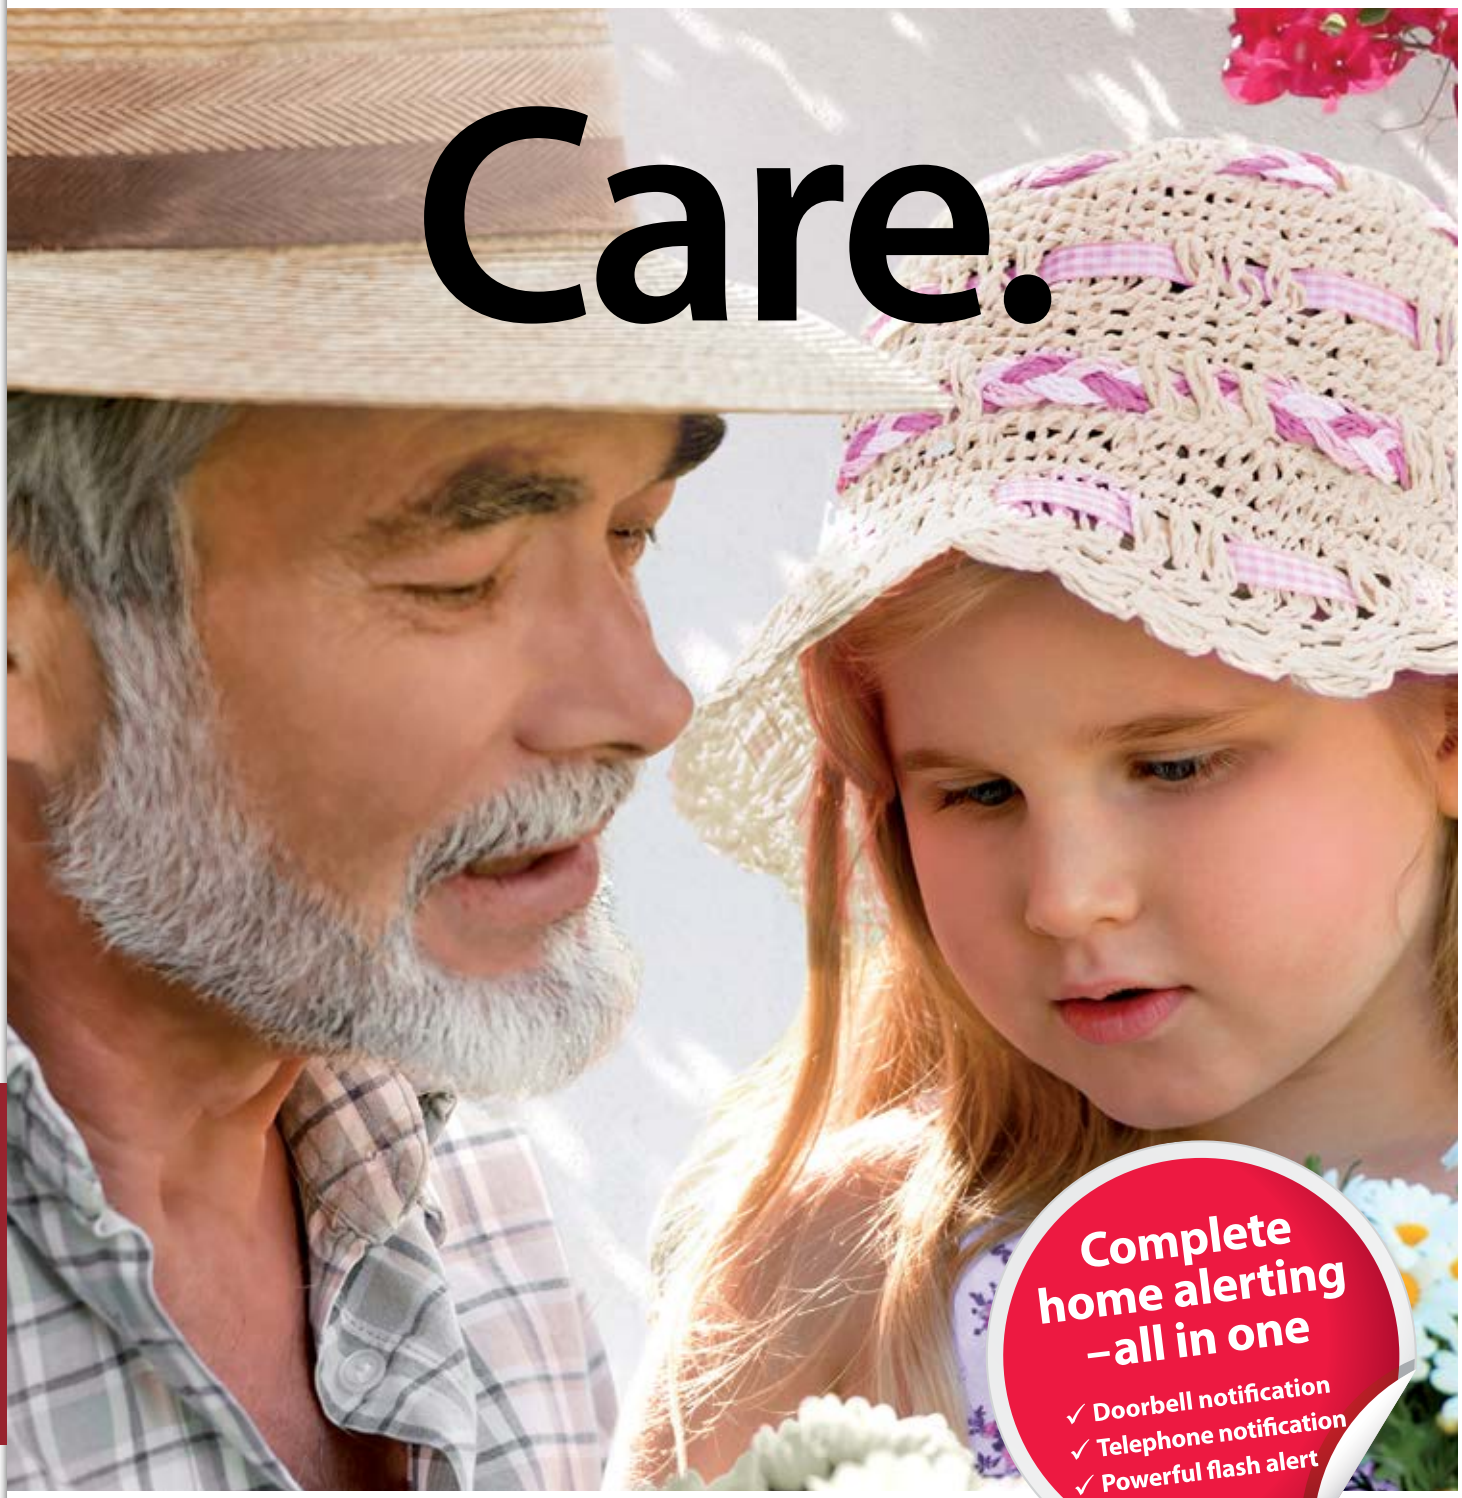
Peace-of-mind for you and your loved ones

Did you know that three out of four fire accidents occur at home? If you have a hearing loss there is always a risk that you will miss the smoke alarm signal in the event of fire.

Bellman & Symfon introduces **Safe**, a complete and ready-to-use fire safety solution that secures your home and protects the ones you love. So now you can wake up fully rested, knowing that you will always be given an early warning.

bellman.se/nz/visit

Bellman & Symfon®
DESIGN FOR EARS



Peace-of-mind for you and your loved ones

Family and friends play a big part in our lives and it is important to stay close to the ones we care about the most. Bellman & Symfon offers a proven solution for those of you who sometimes have difficulty hearing the doorbell or when the telephone rings.

The **Care** home alerting solution comes complete and ready-to-use. It ensures that your family and friends will always be able to reach you, providing peace-of-mind for both you and your loved ones.

Hear your home.

Even with a modern hearing aid, there are still some sounds that are going to be difficult to hear. For example when the doorbell or telephone rings, especially when you are in another room or when you take a nap. This is completely normal. In fact, did you know that over 70% of people over 70 have difficulties hearing the signals in their home? Do you recognize yourself in any of the following:

- **Are you concerned that you rarely get calls or visits from family nowadays?**
- **Have friends expressed that you are difficult to reach over the phone or that there is no one there to answer the door?**
- **Are you worried that you or your loved ones might not wake up in time in case of fire?**
- **Do you sometimes oversleep, even though the alarm clock seems to work?**

Visit is a notification system that will help you to hear the signals in your home. Here you can learn how it works and how it can help you to stay safe, secure and independent.

Fire notification
Have a safe & sound sleep

Doorbell notification
Know when the guests arrive

Amplified wakeup alarm
No more oversleeping

Telephone notification
Never miss a phonecall

The principle

- Couple with child 30+
- Couple 60+
- Single 80+

Couple with child 30+

♂♀ Severe hearing loss ♁ Normal hearing

Description

The family of three lives in an apartment. Both parents have severe hearing loss and have trouble hearing the signals in their home.

They want to make sure their home is a safe place for their child to grow up in but don't want to use sounding devices that might stir the baby in her sleep. "But what if we can't hear when our baby needs attention?"

Solution

Baby monitoring, door- and telephone notification and improved fire safety. The Visit flash receiver alerts them when the baby needs attention and when the doorbell or telephone rings. At night, they can use it with the mobile phone sensor to boost the mobile phone wakeup alarm.

1 **Door transmitter**
Detects when the doorbell rings
Art no. BE1023

2 **Smoke detector**
Detects both smoke and fire
Art no. BE1282

3 **Baby monitoring**
Detects when the telephone rings
Art no. BE1290

4 **Mobile phone sensor + Telephone transmitter**
Detects when the mobile and landline phone rings
Art no. BE9250 + Art no. BE1123

5 **Flash receiver with backup battery**
Notifies you with flashing lights and colored leds
Art no. BE1443

1. Doorbell detection

2. Smoke/fire detection

3. Baby monitoring

4. Telephone detection

5. Flash notification during day and night

PH 09 489 8100. FAX 09 448 1631. EMAIL sales@reidtechnology.co.nz. WEB www.reidtechnology.co.nz.

Couple 60+

♂ Moderate hearing loss ♀ Normal hearing

Description

The couple lives in a large house with a garden. He has a moderate hearing loss and doesn't always hear the doorbell or telephone.

His wife and family find him difficult to reach, and he feels a bit isolated. She is worried because he is a heavy sleeper.
"Oversleeping is not the end of the world, but what if a fire occurs?"

Solution

Door- and telephone notification and improved fire safety.
The Visit pager let's him know when the doorbell and telephone rings, even if he is out in the garden. The Visit alarm clock awakes them in the morning and gives an early warning in case of fire.

1 **Push button transmitter**
Works as a wireless doorbell
Art no. BE1240

2 **Telephone transmitter**
Detects when the telephone rings
Art no. BE1123

3 **Smoke detector**
Detects both smoke and fire (use one for each floor)
Art no. BE1282

4 **Pager receiver**
Notifies you with discreet vibrations on the belt
Art no. BE1230

5 **Alarm Clock with bed shaker**
Awakes you with sound, flashes and vibrations
Art no. BE1380

1. Wireless doorbell

2. Telephone detection

3. Smoke/fire detection

5. Nighttime notification + wakeup

4. Daytime notification

Single 80+

♀ Severe hearing loss ⌂ Senior apartment

Description

She has been a widow for some time and has recently moved to a one-room senior apartment. She has a severe hearing loss and has trouble hearing the doorbell and telephone.

Family and friends find her hard to reach, and she feels sad that her loved ones rarely call or pays her a visit.

Solution

Doorbell and telephone notification.
The Visit flash receiver notifies her with flashing lights when the doorbell and phone rings, even if she is taking a nap. She can even bring it with her to the common rooms if she is expecting a call or visitor.

1	**Door transmitter** Detects when the doorbell rings Art no. BE1023	
2	**Telephone transmitter** Detects when the telephone rings Art no. BE1123	
3	**Flash receiver with backup battery** Notifies you with flashing lights and colored leds Art no. BE1443

TRANSMITTERS

Detection: Baby, Door, Phone, Fire, Alarm

Visit door transmitter

Helps you to notice when the guests arrive. When someone rings your doorbell, it signals the Visit receiver that notifies you with sound, flashes or vibrations. This way you will never miss a visitor.

Art no. BE023

Visit telephone transmitter

Helps you to notice when the telephone rings. When someone calls you up, it signals the Visit receiver that notifies you with sound, flashes or vibrations. From now on, you don't have to worry about missing a call.

Art no. BE1123

Visit push button transmitter

Works as a wireless doorbell. Just attach it by the front door, and you will be notified when someone rings it. It can also be used as a portable alarm to notify your partner that you need assistance.

Art no. BE1240

Visit smoke detector

If a fire accident should occur, the Visit smoke detector will instantly signal the Visit receiver that alerts you with sound, flashes or vibrations. This means you will always be given an early warning.

Art no. BE1282

Visit baby monitor

Recommended for parents with hearing loss. When your baby is crying, it signals the Visit receiver that alerts you with sound, flashes or vibrations. This way you are always close to your baby.

Art no. BE1290

RECEIVERS

Notification: Sound, Flash, Vibration

Visit portable receiver

Notifies you with a loud sound signal and a bright light when a Visit transmitter is activated. It's easy to use and wireless, so you can bring it out on the balcony or the porch.

Art no. BE1033

Visit flash receiver

Notifies you with bright flashes when a Visit transmitter is activated. It's easy to use, wireless and runs on standard batteries so you can bring it with you around the house.

Art no. BE1443

Visit pager receiver

Notifies you with vibrations and a lighted symbol when a Visit transmitter is activated. It is small, light-weight and can be carried discretely in your pocket or on your belt.

Art no. BE1230

Visit alarm clock

Wakes you in the morning with sound, flashes and vibrations from the accompanying bed shaker. It will also awake you when the doorbell or telephone rings – or if a fire accident should occur.

Art no. BE1380

Bed shaker

Awakes even the heaviest sleeper with powerful vibrations under the pillow or mattress. It comes with the Visit alarm clock and works with all Visit receivers.

Art no. BE1270

PRO610-1

Amplified Cordless Phone

Ideally suited to persons with moderate to severe hearing loss and/or low vision.

Key Features & Benefits

- Talking voice menu function on the cordless handset guides user through setup – ideal for persons with low vision

  High-quality components and innovative acoustic design combine to provide crystal-clear amplified conversations
- One-touch earpiece volume-boost button makes calls louder and easier to understand
- Two user profiles can be programmed to control earpiece receiver equaliser and amplification
- Hearing aid and T-coil compatible for users with hearing aids fitted with "T" switches
- Never miss a call with extra loud ringers on handset and base up to 90dB SPL
- One-touch loud handsfree speakerphone on cordless handset
- Ultra-bright white strobe lights on the handset and base to visually signal incoming calls
- High-contrast backlit display with enlarged easy-to-read characters
- The simple-to-use phonebook stores 50 names and numbers for quick dialling

- Call waiting Caller ID* with 30-number call log – identify who is calling before you answer
- Ergonomic design coupled with large, well-spaced, tactile buttons provide for comfort and ease-of-use
- WiFi-friendly – interference-free technology
- The base has a jack for use with the optional shaker alert device, which vibrates to signal incoming calls
- Cordless handset includes a jack for use with the optional headset or inductive neck-loop
- Multi-handset capable (up to 5 handsets)

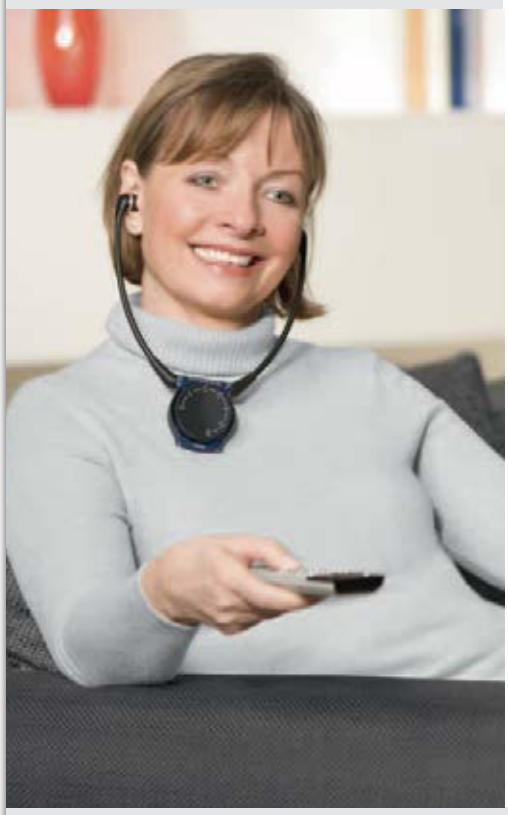
Set 840 – TV

Your Individual Listening Pleasure

Set 840-TV is an RF stereo TV listening system that is ideally suited for wireless listening in your house or in your yard. Whether you are watching a TV program or listening to sophisticated classical music, Set 840-TV is sure to provide excellent sound. Just the push of a button sets the device to your personal listening preferences, providing you with the enjoyment of speech that is easier to understand.

The lightweight receiver is comfortable to wear because of its fl exible earpads. Ergonomic controls and visual feed-back of certain operations make Set 840-TV easy to use. It can be connected directly to your TV, hi-fi system or radio.



- Easy to set up and operate
- Wireless mobility within a range of up to 100 m
- Transmits even through walls
- Excellent individual stereo sound
- Three selectable hearing settings on the transmitter: optimized speech intelligibility due to switchable compression and treble emphasis
- Treble emphasis can be set individually
- Large, ergonomic volume control on the receiver
- Balance control on the receiver for setting the volume for the right and left ear
- Receiver automatically turns on/off when it is put on/removed
- Flexible earpads and low receiver weight guarantee a high degree of comfort while wearing
- Three selectable transmission channels on the transmitter for optimum reception
- Auto-tuning – automatic channel search tuning can be activated on the receiver
- Receiver can be placed in the transmitter's charging compartment facing in either direction

CLOCKS

Alarm clock, Pro model

BE1370

Bellman & Symfon®

Features

1. **Extra loud 100dB* alarm**
   Ascending multi-tone signal
2. **4x high intensity flash lights**
   Effective even in daylight
3. **Powerful bed shaker**
   Vibrates and emits a sound
4. **Night light beacon**
   Leads you back to bed
5. **Battery backup**
   Keeps all features functional
6. **Smart Snooze**
   Reduces the snooze interval
7. **Telephone detector**
   Amplifies the phone signal

100 dBA @ 4", 94 dBA @ 12"

Waking up has never been easier

With the Pro Alarm clock from Bellman & Symfon you no longer have to worry that you might oversleep. Choose to wake up to an extra loud and audible alarm, four high-intensity flashing lights or a bed shaker that vibrates and emits a sound directly in your pillow. Perfect if you have a hard time getting out of bed or have trouble hearing.

The Pro Alarm clock has many unique features like the night light beacon, a mild blue light that guides you back to bed if you are up at night, and a smart snooze function that reduces the time intervals from 9 to 2 minutes. The alarm signal sweeps through the frequencies so that even if you have trouble hearing for instance high frequencies you will not miss it. The Pro Alarm clock is very easy to use. It has a large LCD display with adjustable back light and two separate push-rotate dials for setting the time and alarm.

In addition, you can connect the alarm clock to your telephone to amplify the ring signal or connect it to a contact mat.

Technical specifications

Size and weight

Height: **4.3"**, **108** mm

Width: **4.7"**, **121** mm

Depth: **3.6"**, **92** mm

Weight: **13.7** oz, **390** g incl. batteries

Connections

- External trigger input 3.5 mm stereo jack
- Telephone modular RJ-11 jack
  Analogue network: 26-120 V RMS, 15-100 Hz

Output signals

- **Sound**
  100 dBA @ 4", 10 cm, 94 dBA @ 12", 30 cm
  Built-in multiple frequency signal with a main frequency of 950 Hz - 3000 Hz
- **Flash**
  4 high-intensity pulsating LEDs
  Warning! Flashes can cause epileptic seizures
- **Bed shaker**
  Vibrator power: 2.0 - 4.0 V DC
  Emits a sound

Display

- Type: Twisted Nematic (TN) LCD
- Adjustable backlight intensity in 5 steps
  The backlight is activated by the snooze button
- Backlight color: white
- Display timeout: 8 seconds

Environmental requirements

- Operating temperature: 59° to 95° F
  (15° to 35° C)
- Relative humidity: 5% to 95%
  (non condensing)

Alarm and snooze

- Alarm timeout: 20 minutes
- Decreasing snooze time interval from 9 to 2 minutes in two minutes steps
- Snooze timeout: 20 minutes

Night light beacon

- Built in night light beacon that guides you back to bed with a mild blue light
- Type: Electro Luminescent (EL) light
- Turn on / switch off with the snooze button
- Timeout: 1h on mains power, 15 min on battery

Operation

- Separate push-rotate dials for easy setting of the time and alarm
- Dedicated button that switches between 12-hour and 24-hour time format
- Dedicated button that adjusts the backlight intensity in five steps
- Dedicated button that turns on / switches off the flash lights and alarm sound
- Battery supervision that monitors and displays the backup battery status.
- The backup battery powers the sound, bed shaker, flash light and beacon.

In the box

- BE1370 Alarm clock
- BE1272 Bed shaker with sound
- Power adapter, 7.5 VDC, 1000 mA
- 4 rechargeable AAA size NiMH batteries
- User manual

Accessories

The following accessories are available:

- BE1271 Bed shaker without sound
- BE9086 External trigger cable
- BE9105 Telephone flex cable
- Telephone adapter plugs for the appropriate country

Regulatory requirements

- Complies with the following requirements:
  WEEE, Der grüne punkt, CE, RoHS, C-Tick and A-Tick

Buttons and controls

VAC500

Portable Vibrating Alarm Clock

Key Features

- Simple to use
- Powerful vibration alert
- Selectable alarm models (audio/bright flasher/vibration)
- Large bright easy to read backlit display
- Ultra loud alarm ringer (up to 78dB)
- Adjustable tone control
- Built-in room temperature display
- Timer function
- Built-in LED torch
- Snooze function - alarm repeats 7 times
- Pillow clip
- Energy efficient MEPS AC adaptor included
- Battery backup in case of power failure requires 3 AA alkaline batteries (not supplied)

oricom®
Connecting you now.

Mobile phone sensor

Art. no. BE9250

Bellman & Symfon®
DESIGN FOR EARS

NEW! Now we introduce the Mobile phone sensor that connects the mobile phone or tablet to the Visit alerting system. It will tell your clients when they receive a call or message, even if they are several rooms away.

When the display lights up, the mobile phone sensor activates the Visit system that notifies the client with sound, flashes or vibrations.

TECHNICAL INFORMATION

Placement	Horizontally on the display
Optical detection	Activated when the display lights up
Light sensitivity	Visible light >3 lux
Battery	1 x AAA 1.5 V alkaline
Operating time	> 1 years under normal use
Connectors	Mobile phone sensor: 2.5 mm tele plug Adapter: 3.5mm tele plug
Connections	Can be connected to all Bellman & Symfon products that feature an external trigger connector like for example BE1430, BE1123 and BE1370
Weight	Mobile phone sensor: 20 g Adapter: 27g (with battery)
Color	White

ADDITIONAL INFORMATION

Ergonomic design	Ideal for people with impaired vision or limited dexterity
Low center of gravity	Resumes an upright position if it is knocked over
Usage	For indoor use only

HELP

TERMS OF TRADE

1. CONSUMER LEGISLATION.

Where the provisions of the Consumer Guarantees Act 1993 apply, these terms will be read subject to the application of that act and in the case of conflict the provisions of that act will apply. Where the buyer is a business (as "business" is defined by the Consumer Guarantees Act 1993) it agrees that it is acquiring all goods from the company for the purposes of that business and that the Consumer Guarantees Act 1993 does not apply.

2. RETENTION OF TITLE.

Ownership of the goods remains vested with Reid Technology Ltd until payment has been received in full.

3. REID TECHNOLOGY LTD MAY VARY THE CONTRACT PRICE.

Reid Technology Ltd may vary the contract price to take account of variations in the cost of materials and services between the date of the buyer's order and the date of delivery.

HOW TO ORDER

1. You may pay by personal cheque, VISA or MasterCard.
2. We DO NOT accept Diners Club or American Express.
3. Cheques should be made payable to REID TECHNOLOGY LTD.
4. Personal callers are welcome. Our opening hours are 9am to 4.30pm, Monday to Friday.
5. Delivery: All goods are shipped by New Zealand Couriers and require a full delivery address.
6. All quoted prices exclude GST and delivery.
